

The logo consists of a dark grey, stylized shape resembling a speech bubble or a drop with a circular top and a small rectangular tail at the bottom left. The text "PAP GROUP" is centered within this shape.

PAP GROUP

PAP GROUP

PAP GROUP is consisted of Pap Safety Glass, Pap Glass and PCA. The group is strongly connected with safety, luxury and innovation and has been vividly active in the glass industry for almost 40 years.

PAP SAFETY GLASS was established by the brothers, **Panagiotis and George Papadopoulos**, located in the Industrial Area of Thessaloniki in proprietary facilities of 16.000 m². The company with a successful and progressive route in glass trading and processing with applications to every demanding requirement, technologically equipped and trained staff has been established the biggest and most reliable glass company in Greece. The wide range of products, the competitive prices, the quick-fast service and the large and satisfied clientele have been the principles of PAP SAFETY GLASS all these years.

PCA was founded in 2008 located in the Industrial Area of Thessaloniki in a plant of 16000m², owned by the group. Company's main activity is designing and manufacturing glass accessories, aiming to provide complete solutions to every glass application. Company's goals are quality, innovation, excellent service and competitive prices. PCA also has a Research & Development (R & D) department of innovative products burdened with the study, design and optimization of components available to the company. For the period 2009 - 2018, 80% of the company turnover occurred in exports worldwide.
